EXPERIENCE

PROFESSIONAL SUMMARY

As an English major, I am switching careers to Front-End Web Development as I am beginning my career in coding. I graduated from UCCS with an English degree. After several years of writing and various jobs, I decided I needed a change and rediscovered my passion for building websites. With the help of Treehouse, I gradually transitioned into web design and web development. Mastering the use of HTML, CSS, and a sprinkling of Javascript, I am always continuing to learn and understand the finer points of front-end development.

TREEHOUSE COURSES

Front-End Web Development Track:

I just completed the front-end web development track and now am looking for my first junior web developer position. The following are some of the projects I completed in Treehouse.

Project 1: Bootstrap

Created a website for a Full Stack Conference using Bootstrap.

Project 2: Responsive Layout

A simple responsive website that's mobile friendly.

Project 3: CSS layout

A basic website showcasing CSS layout techniques.

FREELANCE WEB DEVELOPER

Oxbow Labs - Active Life

Built a web page using Bootstrap for a client of Oxbow labs. Part of the job was making the web page better including adding images and color.
